CS-2.		Favor	Melinda Currado	<p>The Doctor in charge MUST have a degree in medicine, preferably in the kind of medicine that has some imagination and innovation, like doctors in third world countries where they have to make due with things that are effective, efficient, and inexpensive. No one should tell doctors what they can or cannot prescribe. This will be even more important as immigration continues. The crisis at the border, where more covid is coming in while you have not opened everything in the county yet, is preposterous. Where is the reasonable-ness? How can we reason with you? It just seems that if you have the power to shut down schools and businesses, you would have the power to take care of the border in a sane manner.</p> <p>No doctor should have the power to go beyond the constitution of either the country or the state. The power grab has been noticed. This should be stopped immediately. This should never happen again.</p> <p>There must be some kind of safeguards to our freedoms.</p>
		Oppose	Claudia Ibarra	I CANNOT BELIEVE CALIFORNIA STILL CLOSED WITH A 99% RECOVERY RATE VIRUS! YOU GUYS SURE LOVE TO BEHAVE LIKE TYRANNICAL DICTATORS! FLORIDA IS OPEN AND WE MORE OR LESS HAVE THE SAME NUMBERS AND YET THEY FUNCTION. BUT HERE IN THIS STATE THE AUTHORITARIAN HEAD PERSON IS ACTING LIKE A STUBBORN CHILD AND WON'T BUDGE EVEN WHEN THE SCIENCE IS IN FRONT OF HER FACE! FIRE THIS USELESS PERSON AND OPEN CALIFORNIA NOWWWWWWW!
		Other	Genevieve M Clavreul	Once again I'd argue that the description associated with the item fails to meet the Brown Act, as it fails to provide sufficient enough information that a reasonable person would know if it was of interest to them.
